When she marries Prince Harry in May 2018, Meghan Markle will attain what we have all long thought was an unattainable seven-year-old’s dream, by becoming a real-life Princess. She is also reinventing what it means to *be* a ‘princess’!

With her ‘every day’ California upbringing, successful career, independent spirit, and feminist pride, she is the perfect role model for young women everywhere.

And now, with a little help from the new book **HOW TO BE A MODERN PRINCESS**, we too can step into Meghan’s glass slippers, and be inspired to channel our inner modern princess!

HOW TO BE A MODERN PRINCESS offers 70 tips and tricks, including:

- Get everyone to call you by your middle name
- Get a cute rescue dog and give it an even cuter name
- Get the princess glow; drink green juice, lots of it!
- Celebrate other women
- Aspire to the Markle Sparkle; simply put – just shine.

This humorous, uplifting, inspiring little book is simple yet profound, and might just change your life forever!

SELLING POINTS:
